

The background is a watercolor-style illustration. It features a mix of blue and purple hues, with some areas appearing darker and others lighter. There are numerous circular, cell-like or bubble-like shapes scattered across the surface, some with a bright white center. The overall texture is soft and painterly.

FEELS LIKE RAIN

MINDY DWYER

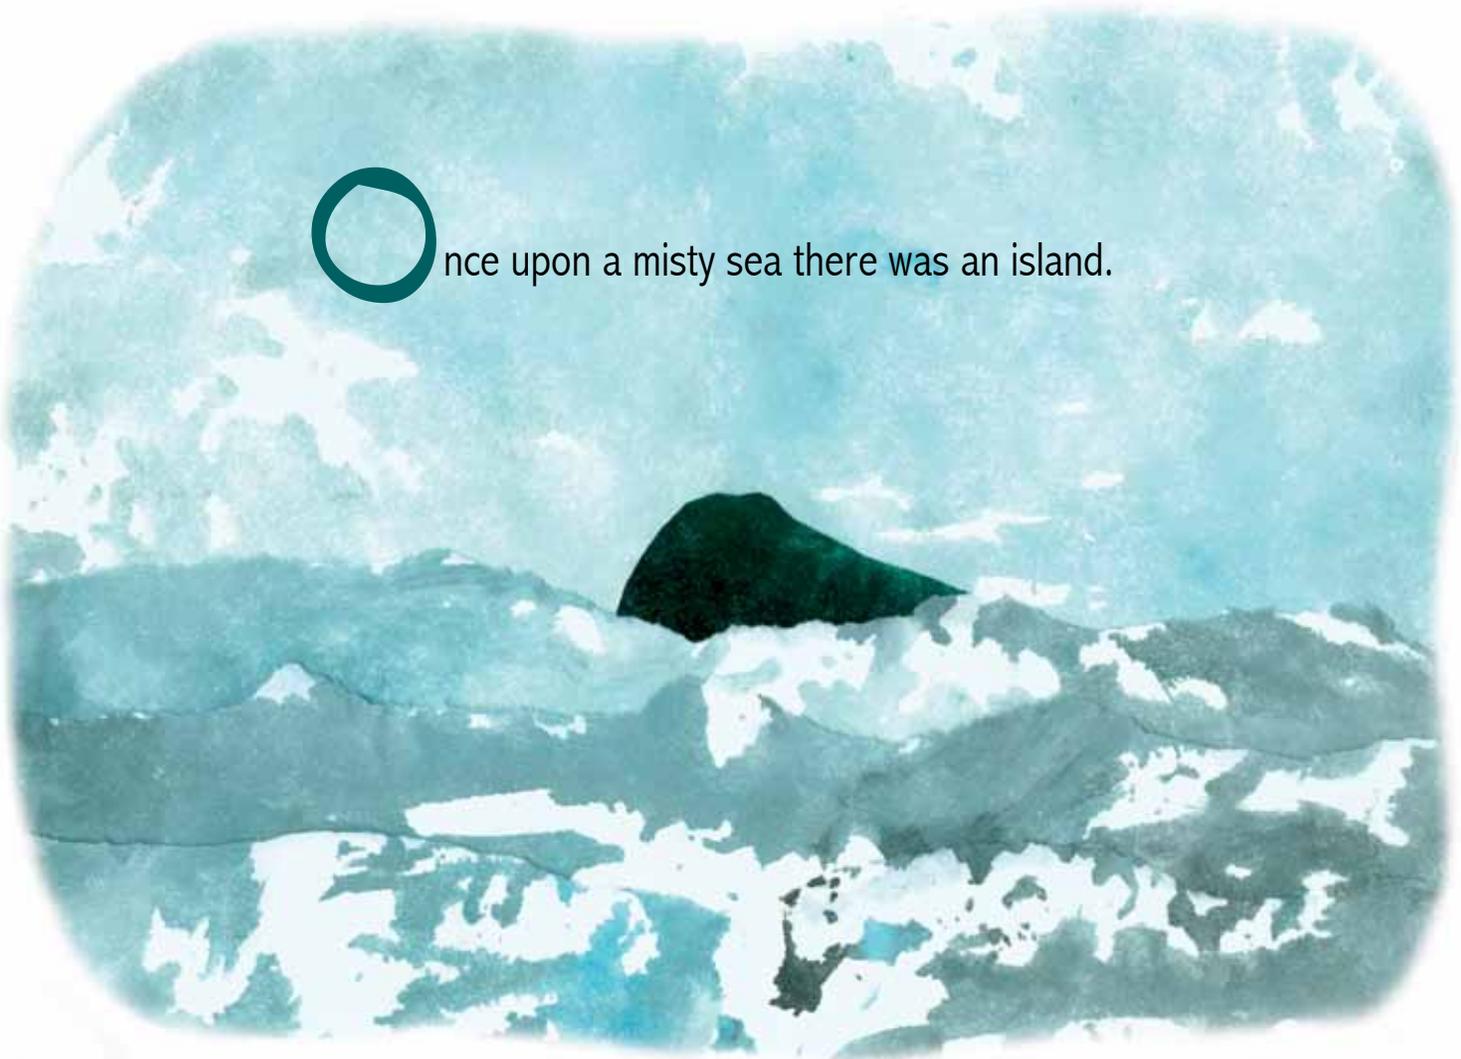

This book was created in a Visiting Artist Collage Painting
Workshop with Mindy Dwyer

FEELS LIKE RAIN

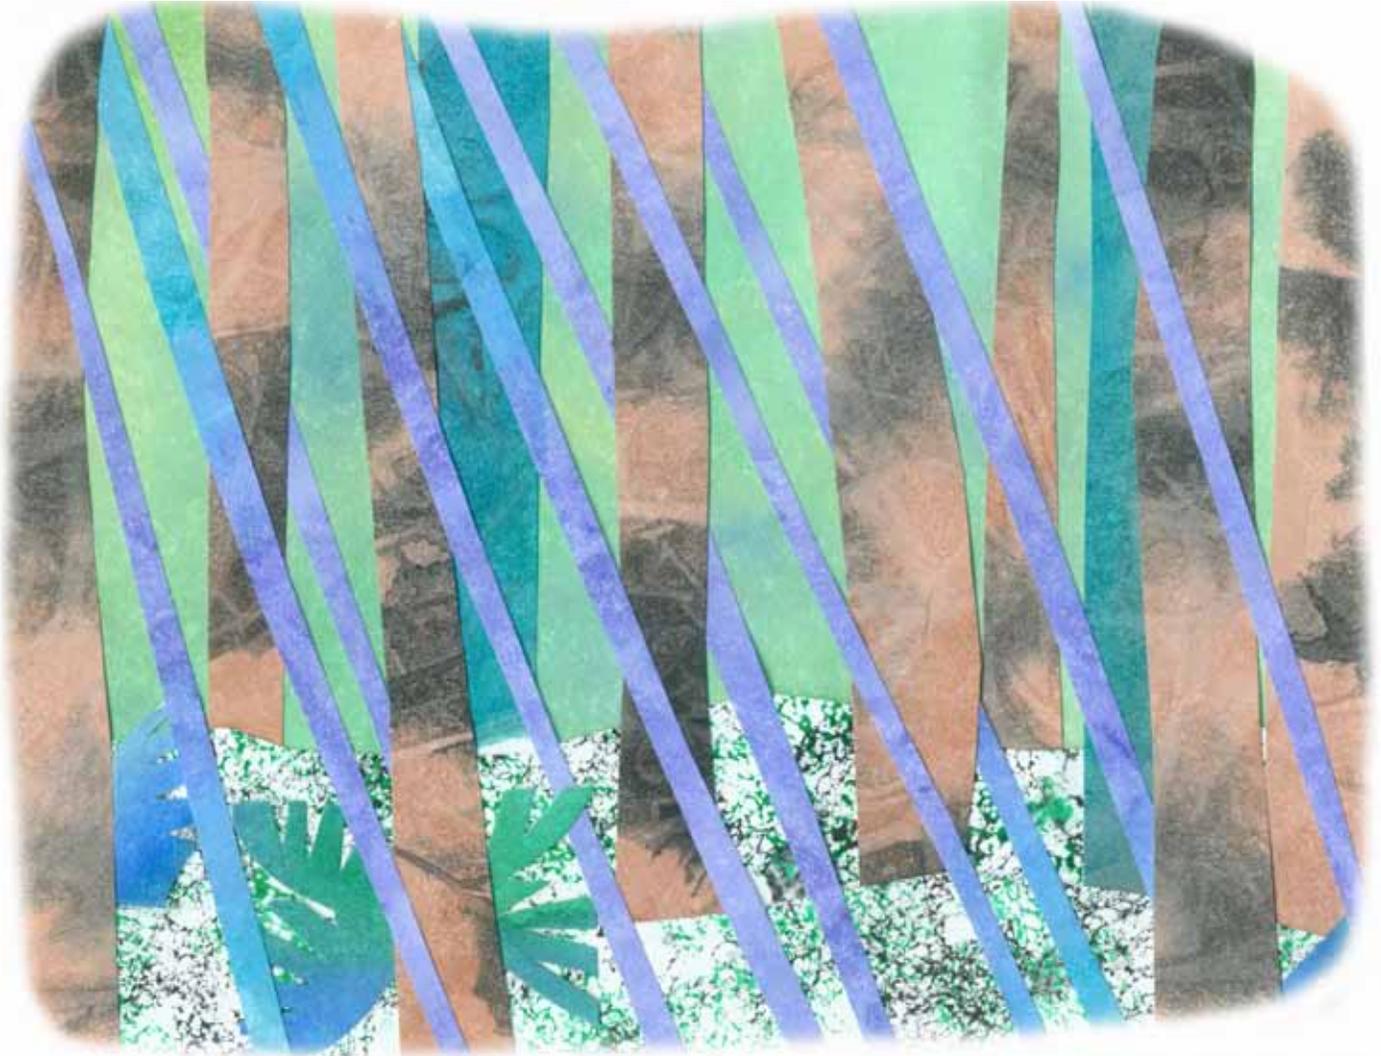

MINDY DWYER 

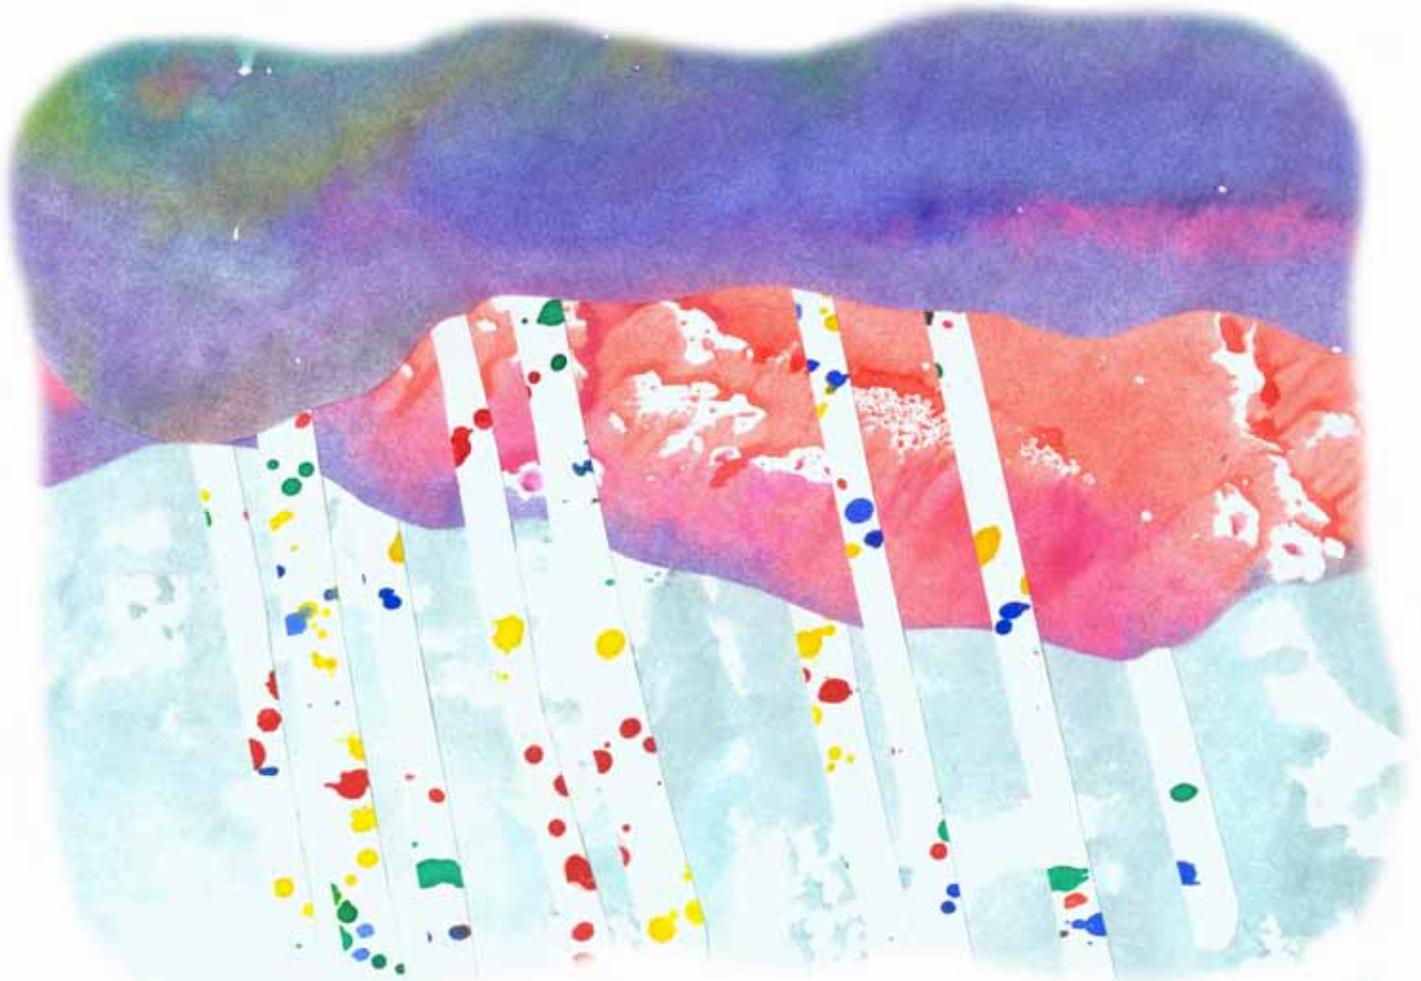

Once upon a misty sea there was an island.

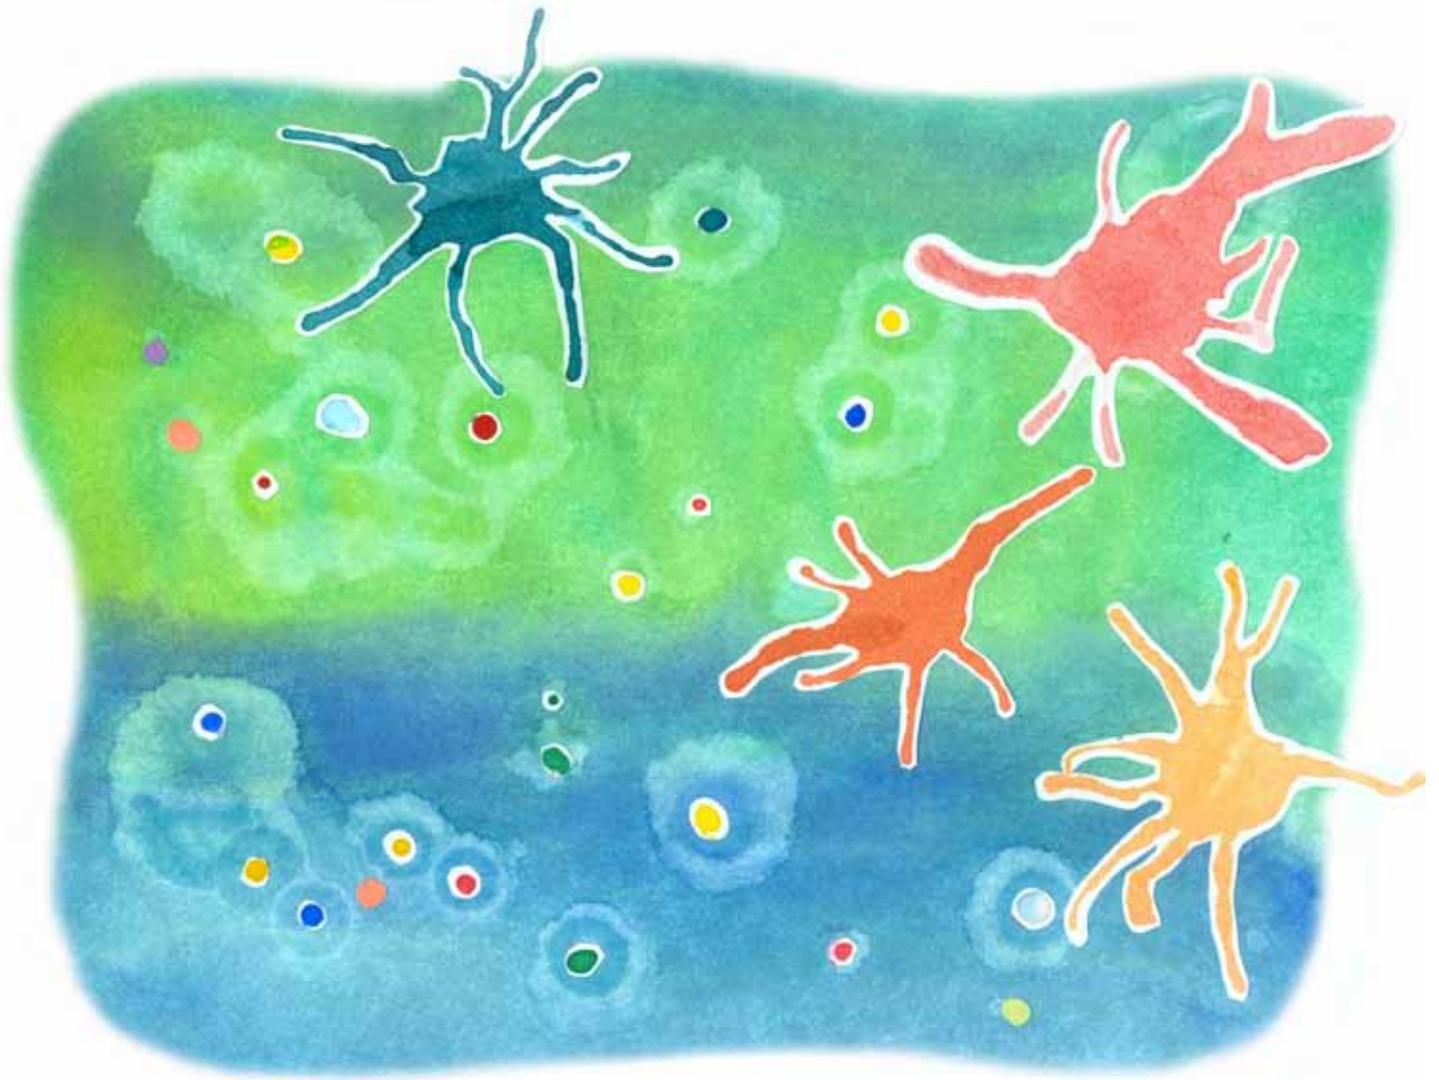

The island was covered in rainforest.

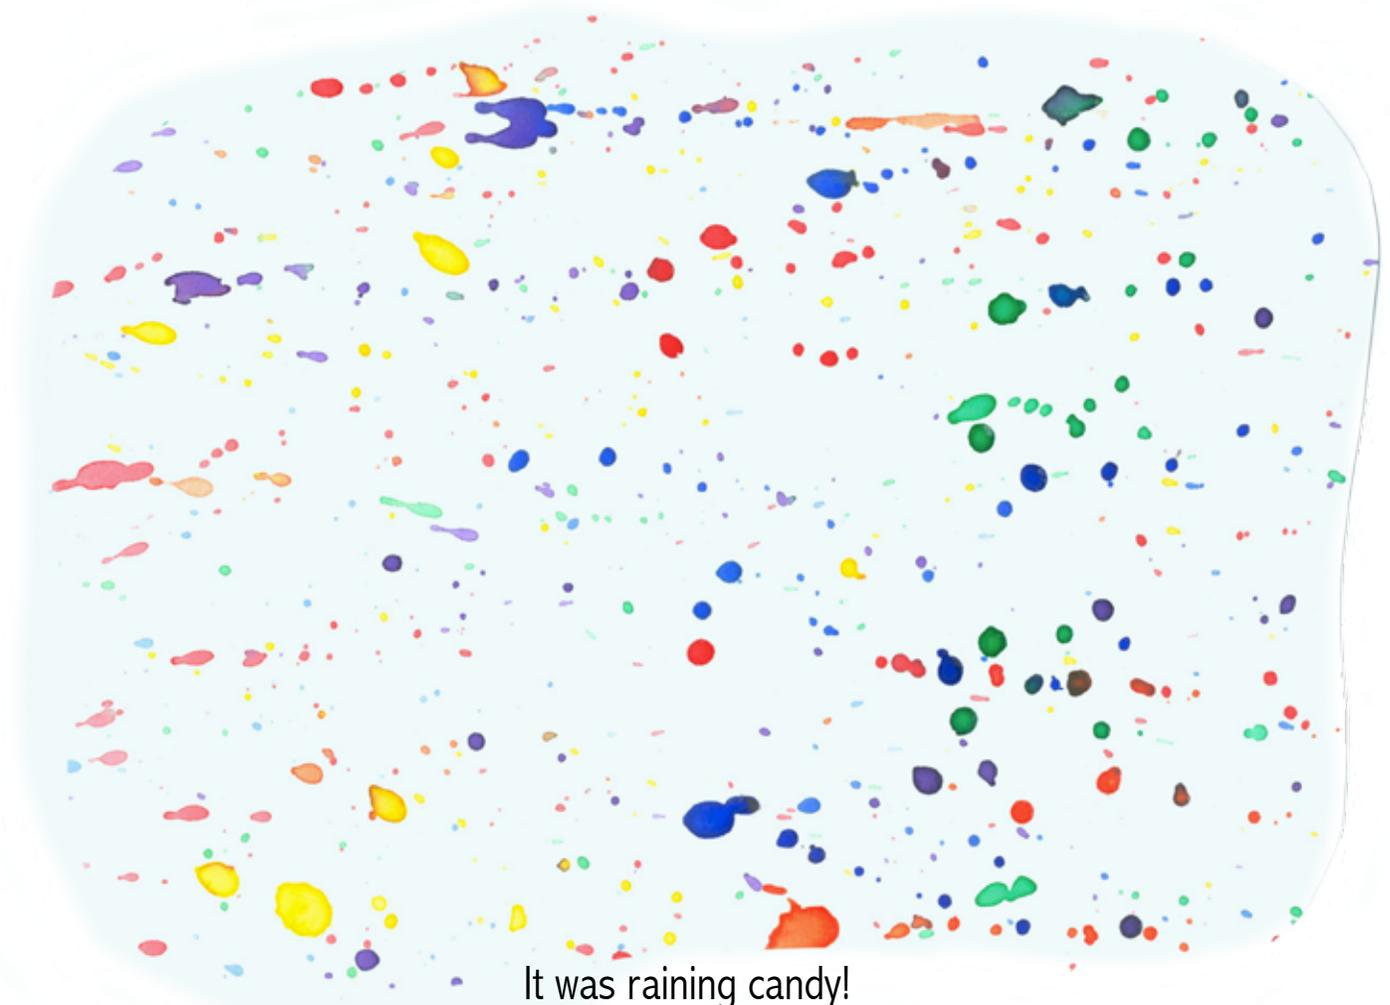

One day just like every other, it began to rain.

Ever so slowly, the sun snuck through the clouds
and the islanders saw something they had never seen before. Was it rainbow rain?

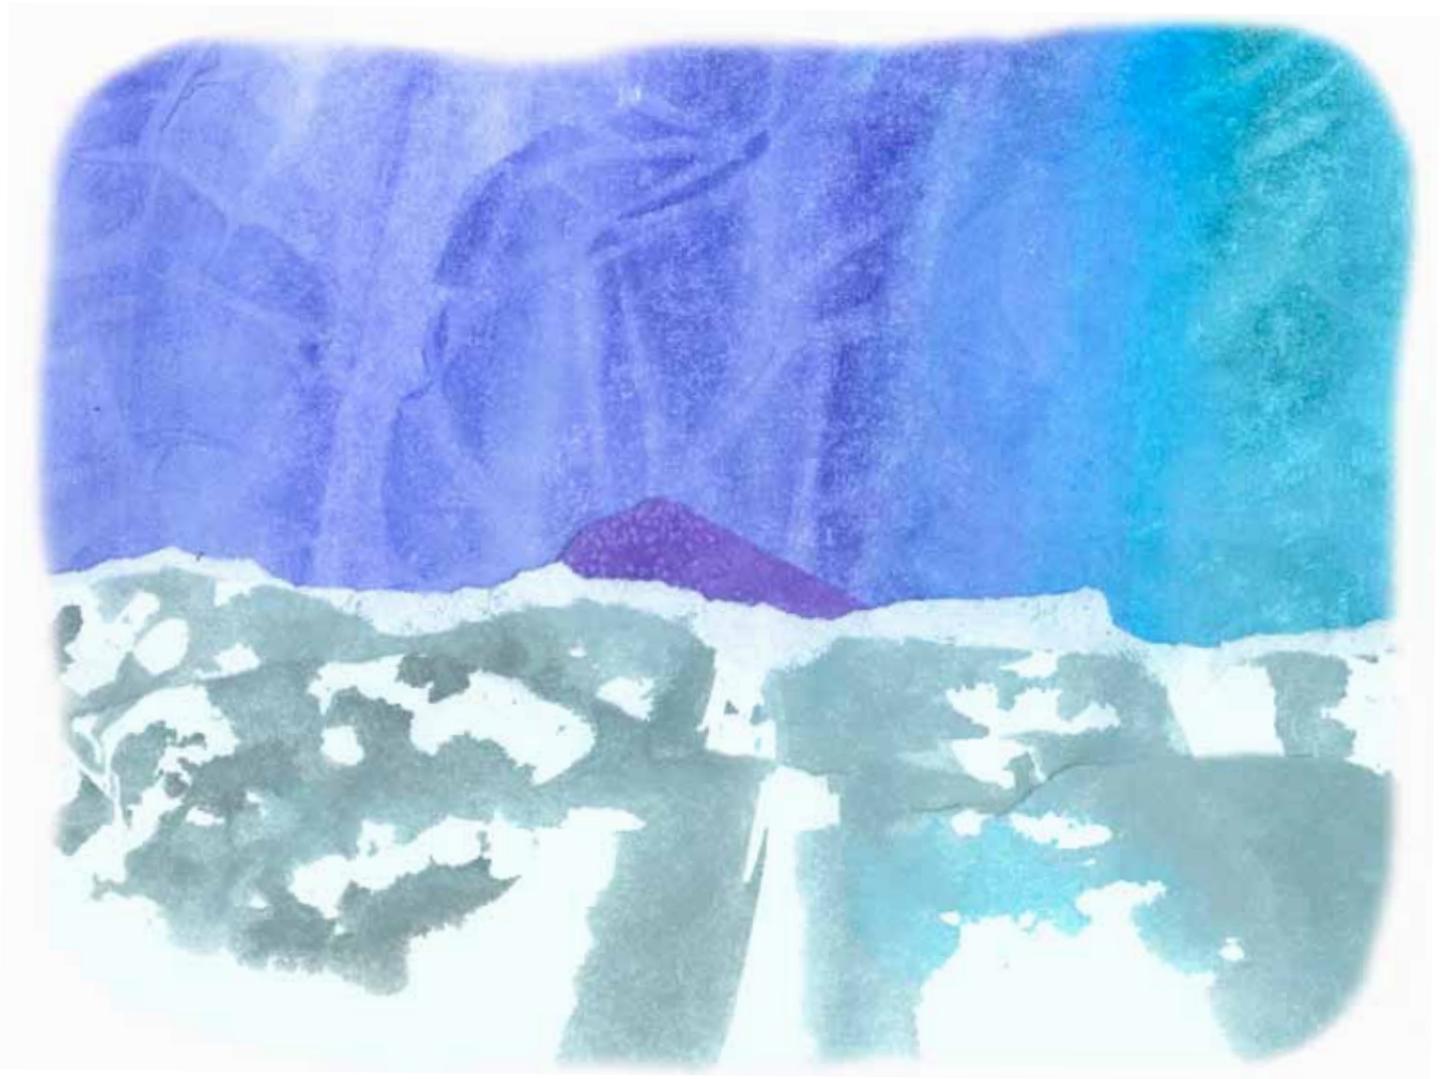

Sea creatures swam up to the surface,
up towards the crazy colorful splashes.

It was raining candy!

Fishermen gathered gumdrops in their nets, the elders laughed,
the children caught gumballs and jumped with joy.

The story was told again and again. Life on the island has never been quite the same. When it feels like rain,

you can still see children looking up in the sky for the sun.
They believe something will happen.

IT HAPPENED ON A RAINY DAY LIKE ANY OTHER....
